40	Emily Hall	0.0	0.0	3.0	0.0				3

Play for each competition night results in a ranking of players.

The top player gains 30 points, second-placed 29 points and so on.

But only the most recent five rounds count at full value. Older results lose 10% each round.

So, 30 points gained turns into a gain of 27 points, then 24.3 points, then 21.9 points and so on.
